
JCCA Editorial Board Members

The Journal of the Canadian Chiropractic Association (JCCA) welcomes five new editorial board members who will bring their expertise to the scholarly peer review process utilized at the JCCA. These researchers, clinicians and educators will help to ensure the JCCA's credibility and accountability. Our literature must undergo the process of peer review in order to withstand the scrutiny of the scientific community at large.

**Dr. Bart Green, DC,
MSEd, DACBSP**

Dr. Bart Green graduated from the Los Angeles College of Chiropractic in 1992 and earned his diplomate from the American Chiropractic Board of Sports Physicians in 1998. He currently serves as an associate professor at Palmer College of Chiropractic West where his interest in educational program development and leadership led him to pursue a master's in science degree in education, which he received from the University of Southern California in 2000. Dr. Green also is on the adjunct faculty in the Division of Medical Education, Keck School of Medicine, at the University of Southern California. He serves as an editor for the clinician-oriented Chiropractic Research Review, as Associate Editor for the journal Chiropractic History, and is the former Editor for the Journal of Sports Chiropractic and Rehabilitation. He currently serves on editorial review boards for the Journal of Allied Health, Medical Education Online, and the Journal of the Canadian Chiropractic Association.

**Dr. Claire Johnson,
DC, MSEd, DACBSP**

Dr. Claire Johnson graduated from the University of California at San Diego, Revelle College, in 1987 with a BA in biology and received her DC from the Los Angeles College of Chiropractic in 1991. She earned a MSEd from the University of Southern California in 2000. She currently serves as an associate professor at Palmer College of Chiropractic West. Dr. Johnson also is on the adjunct faculty in the Division of Medical Education, Keck School of Medicine, at the University of Southern California. She has served as the Conference Chair and Peer Review Chair for the Association of Chiropractic Colleges for the past six years and has focused on elevating the quality of research presentations and the amount of educational research produced in chiropractic. She serves as an editor for the clinician-oriented Chiropractic Research Review and is the former Editor for the Journal of Sports Chiropractic and Rehabilitation. She currently serves on editorial review boards for the Medical Education Online, the journal Chiropractic History, Integrative Medicine: A Clinician's Journal, and the Journal of the Canadian Chiropractic Association.

Dr. Jill Hayden, DC

Dr. Jill Hayden DC is a PhD candidate in Health Policy, Management and Evaluation (Clinical Epidemiology) at the University of Toronto. Dr. Hayden has received numerous awards recognizing her academic and research accomplishments including a CIHR Fellowship Award, which she currently holds. Dr. Hayden graduated from CMCC in 1996 and completed a Clinical Sciences Residency program. She is based at the Institute for Work and Health (IWH) in Toronto. Her current areas of research expertise include systematic review methodologies, and the prediction of chronic disability in low back pain.

**Dr. Paul Bishop,
DC, MD, PhD**

Dr. Paul Bishop graduated from Canadian Memorial Chiropractic College in 1991. He then went on to complete a PhD degree in Pathology (Faculty of Medicine, Univer-

sity of British Columbia) which investigated the etiology of intervertebral disc degeneration in the human spine. Dr. Bishop then attended Medical School at the University of Calgary and graduated in 1991. Dr. Bishop is now a Clinical Assistant Professor in the Department of Orthopaedics in the Combined Neurosurgical and Orthopaedic Spine Program (CNOSP) at the University of British Columbia, located in the Vancouver Hospital and Health Sciences Centre. He is the current Director of the CNOSP Outpatient Clinic and is involved in patient care and clinical teaching as well as clinical and basic science research. His current research activities include investigating the validity of various back pain treatment protocols as well as the immunological etiology of sciatica.

**Dr. Brian
Gleberzon, DC**

Dr. Brian Gleberzon graduated from the Canadian Memorial Chiropractic College in 1989 after completing three years at the University of Toronto in Biological Studies. He practices in Toronto and currently serves as an Associate Professor at CMCC in the Departments of Applied Chiropractic (Technique) and Clinical Diagnosis. He has published over a dozen articles in three different peer-reviewed journals on topics ranging from autism to ageism, from osteoporosis to community-based outpatient clinics, and from geriatric care to Name Techniques in chiropractic. Since 1997, he has been involved with the Technique Consortium of the Association of Chiropractic College, acting as its chairperson since 1999. He has edited two textbooks, one titled Chiropractic Care of the Older Patient, and the other, scheduled for release in fall 2003, Technique Systems in Chiropractic with Dr. Robert Cooperstein of Palmer College of Chiropractic West.
