Pain changes everything. Chiropractic care changes pain.

You want to live a healthy, active life. But day-to-day life puts demands on your spine, muscle and nervous system.

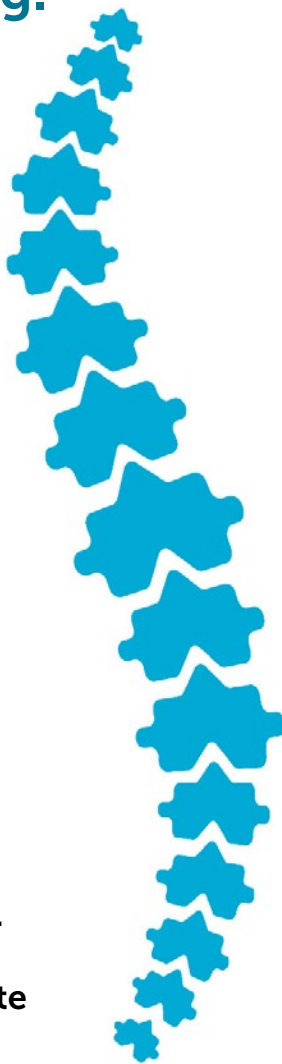

Chiropractors

- Diagnose and treat causes of pain
- Use a hands-on, non-invasive, drugless approach
- Correct joint motion and restore proper movement

7.3 MILLION CANADIANS

Suffer from chronic pain. Back pain is the leading type. 2/3 report moderate to severe pain.

4.7 MILLION CANADIANS

16% of the adult population - visited one of Canada's 9,000 chiropractors in 2019

What type of pain do chiropractors treat?

- Neck and back
- Some types of headaches and migraines
- Strains and sprains
- Arthritis

3 benefits of seeing a chiropractor

1. Relieve pain and prevent it from returning
2. Improve movement in neck, shoulders, back and torso
3. Treat and prevent muscle and joint injuries

Is a chiropractor right for me?

You do not need a referral to visit a chiropractor. Find a chiropractor near you at
